**READ ALOUD TO RESPONDENT:**

This interview is part of the regular intake process for people entering this treatment program. It usually takes a little over an hour to complete, depending partly on how clear and direct you can be in giving your answers. I will be asking primarily about your personal and family background, your friends, your criminal and legal involvement, and your drug use history. When I ask about “other drugs” besides alcohol, I mean the use of any illegal drugs or anything else taken without a doctor’s prescription. Many of my questions will refer to the “last 6 months” or the “last 30 days” before you entered this treatment program or, if you have recently been incarcerated, the time that immediately preceded that.

It is very important that you be open and honest. Some questions may seem sensitive or embarrassing to you, but they are necessary to help us understand your problems and plan your treatment here.

Do you have any questions before we start?

**GENERAL INSTRUCTIONS TO INTERVIEWER:** Some items in this form leave space for recording answers verbatim for later coding. Examples of this are converting years into months or drinks.

**NOTE ON JAIL/PRISON “TRANSFERS” TO TREATMENT:** Special instructions are necessary for defining the “last 6 months” and “last 30 days” before treatment for clients entering the program directly from jail or prison. In particular, they should be asked to report behaviors based on the time immediately BEFORE jail/prison in an effort to obtain more meaningful baseline measures.

PART G: AIDS RISK ASSESSMENT

In this last set of questions, I need to get information about your drug use and sexual activities that could have exposed you to HIV, the virus that causes AIDS. A few questions are highly personal, but it is very important that you be open and honest in your answers.

1. In the last 6 months before entering this treatment, how often did you inject drugs with a needle? [USE “ANSWER CARD B”] [32] 

2. How often did you use needles or syringes that were “dirty” -- that is, that someone else had used and were not sterilized or cleaned with bleach before you used them? [33] 

3. And how often did you use the same cooker, cotton, or rinse water that someone else had already used? [34] 

4. Altogether, how many PEOPLE did you share the same works with during those 6 months? This means all the people who used the same needles or syringes, cooker, cotton, or rinse water before you did? [35-37] 

5. In the last 30 days before this treatment, how many TIMES did you inject drugs with a needle? [38-40] 

6. How many times did you use needles or syringes that were “dirty” -- that is, that someone else had used and were not sterilized or cleaned with bleach before you used them? [41-43] 

7. How many of the times you injected in those 30 days did you use the same cooker, cotton, or rinse water that someone else had already used? [44-46] 

8. And how many of the times that you injected drugs were you with other people who were also injecting? [47-49] 

9. Altogether, how many PEOPLE did you share the same works with in those 30 days? This means all the people who used the same needles or syringes, cooker, cotton, or rinse water before you did. [50-52]
10. What about **SEX** in the **last 6 months** before entering this treatment?  
   How many PEOPLE did you have **sex** with during that time  
   (including vaginal, oral, or anal)? .................................................. |___|___|___| | [53-55]

# PART I: CLIENT ASSESSMENT PROFILE

**INSTRUCTIONS:** This page should be completed for each client immediately after the intake process to summarize the interviewer's clinical assessments. The ratings should indicate global severity of problems which need to be addressed through treatment (either at this agency or through referral). The rating scale ranges from “1” (no treatment necessary) to “7” (treatment needed for life-threatening situation); intermediate ratings of “3”, “4” or “5” identify symptoms of moderate intensity.

[REFERENCE ITEMS FOR EACH PROBLEM-AREA RATING ARE IDENTIFIED IN PARENTHESES]
