READ ALOUD TO RESPONDENT:

This interview is organized into several sections. Most of the time you will be asked about how you have been doing for the past 6 months. You will be asked to use this set of “Answer Cards” for some questions. When needed, I will tell you which card to use. [HAND CARDS TO RESPONDENT.]

Your answers will be used to carry out scientific studies on how you and others have done after leaving treatment (at the Salvation Army First Choice Program), so please be open and honest.

Do you have any questions before we begin?

GENERAL INSTRUCTIONS TO INTERVIEWER: Some items in this form require that answers be recorded “verbatim” and then coded into specific units of measurement -- such as “months” or “amounts of alcohol.” To help the research staff, please feel free to write comments or explanations of answers in the margins next to questions. Also, always identify items the respondent cannot or refuses to answer.

NOTE TO INTERVIEWER: Questions requiring the use of “ANSWER CARDS” are marked with a superscript (next to the question number) to designate which card is needed.
