READ ALOUD TO RESPONDENT:

This interview is organized into several sections. Most of the time you will be asked about how you have been doing for the **past 6 months**. You will be asked to use this set of "Answer Cards" for some questions. When needed, I will tell you which card to use. [HAND CARDS TO RESPONDENT.]

Your answers will be used to carry out scientific studies on how you and others have done after leaving treatment (at the Salvation Army First Choice Program), so please be <u>open and honest</u>.

Do you have any <u>questions</u> before we begin?

GENERAL INSTRUCTIONS TO INTERVIEWER: Some items in this form require that answers be recorded "verbatim" and then coded into specific units of measurement -- such as "*months*" or "*amounts of alcohol.*" To help the research staff, please feel free to write comments or explanations of answers in the margins next to questions. Also, always identify items the respondent <u>cannot or refuses</u> to answer.

NOTE TO INTERVIEWER: Questions requiring the use of "**ANSWER CARDS**" are marked with a <u>superscript</u> (next to the question number) to designate which card is needed.
